

## What is happening?

Palmer Township recently began the process of developing a new, community-driven master plan for the Township-owned parks & trails along the Bushkill Creek Greenway Corridor. The primary goals of this plan are to:

- Mitigate flooding
- Update facilities
- Demonstrate exemplary accessibility
- Enhance multi-user recreation experience
- Support trail system changes
- Protect habitat & enhance resilience
- Communicate local historic & cultural significance

Palmer Township is leading the plan with Omnes, a landscape architecture & planning firm based in Easton, whose consultant team includes Wildlands Conservancy and AKRF. This multidisciplinary team has expertise in landscape architecture & planning, resiliency, ecological restoration & engineering.

## How can I get involved?

- **Take the Bushkill Creek Greenway Community Survey!** Sign up at the link below to be notified when the survey launches in May.
- **Attend a public meeting or pop-up event!** Palmer Township is seeking community feedback at a series of upcoming events, and all are invited and encouraged to participate. Sign up at the link below to be notified of upcoming events!
